

Your occupational pension

Did you know that as your employer we pay in to your occupational pension every month? Below you can see an overview of the benefits the occupational pension gives you both before and after retirement.

More money when you retire

You will receive money from different sources when you retire. You will receive the state pension from Pensionsmyndigheten (the orange envelope). You will also receive an occupational pension which you can affect yourself. You can choose how and where your pension premiums are invested and whether you want your family to have added financial protection.

Extra money if you become ill

In addition to the sickness benefit you receive from Försäkringskassan you will also receive money from your occupational pension if you become ill.

In the event of your death

If you die your family will receive a lump sum payment from the group life insurance (TGL). You can choose the beneficiary or beneficiaries.
